Glossary	67

Introduction

In line with the main goal of language teaching at Iranian universities, i.e. the improvement of reading comprehension ability, set by the Foreign Language Committee on Curriculum Development (1980), the present book: **English for the Students of Theology** is prepared to meet the need of university students regarding reading and comprehending the religious texts. This book is intended for Bachelor and Master level students. Starting with the first *Surah* of the Holy Quran and the second section of *Ushah*, *Al-Balaghah* as a blessing, the book contains seven units, each introducing an Islamic concept. The units are divided into three parts: Pre-Reading, Reading Passage, and Post-Reading. No attempt has been made to grade the units according to level of difficulty. Therefore, the instructors may select the relevant units to their course syllabus. The presentation of Glossary at the end of the book will assist the learners in mastering the theological terms as well as the better understanding of the religious texts.

The authors hope that the book would assist the instructors in their teaching and students in improving their comprehension of the religious texts.
