Preface

This book does give you the chance of learning 192 lexical items – the ones you can see in no other related book: these are what you need to communicate effectively. The sentences in which the lexical items are inserted are common ones.

The 192 lexical entries in this book can be committed to memory in a 4-week period. Each week, study six units. On the seventh day read the achievement.

This book is useful to anyone who seeks to have a good command of English. In addition, the students who want to pass Ph.D. or M.A. entrance examinations, or the ones who want to pass IELTS or TOEFL tests will find the book useful.
