## PREFACE

English language is a universal media for many foreign language speakers, worldwide to communicate. This would be the best reason to learn and practice English, particularly, in academic levels, in which the main textbooks and scientific sources are in English. To achieve this aim, the board of the authors of this book, ***"Expand your English"***, who have the academic experience of teaching English language, in universities, planned to provide a beneficial textbook. The present book is a teamwork endeavor to resolve the essential requirements of students, in the field of English language, by fortifying the previous English knowledge of students, by demanding materials, in a new pattern. Like many other similar textbooks, the main concentration of this present book is to instruct the English language reading and grammar skills, for university students. However, by utilizing years of teaching experiences, in academic levels, the instructors of this book attempted to present the material in a new approach and method, by the aim of tangible reading passages and grammar structures. This book with the previous book, ***"Practice your English"***, by the same authors, is an instructive source, for learning English language.

Nevertheless, authors know that like any other text, there might be some defects that must be solved. The board of authors would be more than happy to hear constructive suggestions to improve this book.

Finally, it is needed to mention that the order of the names of the authors does not indicate the weight of their work in writing this book.

Board of Authors

## TABLE OF CONTENTS
