### INTRODUCTION

"increasing vocabulary is the single most important way to improve your communicative power."

Michael Lewis

If you are going to take the TOEFL, you will find the vocabularies of this book very helpful. This book will help you to review, and acquire a lot of words that you might need to use in the Writing and Speaking sections, or that you might come across or be tested on in the Listening and Reading sections. A greater command of vocabulary is one of the key factors that will help you raise your TOEFL score.

Advanced Vocabulary for the TOFEL is designed to help students of English and those who are working or who want to work in an English-speaking environment

#### Advanced Vocabulary for the TOEFL

to develop and practice the essential vocabulary that they would need to know or use on a day-to-day basis, or in order to get a better grade in an exam. This book gives the learners opportunities to learn new words so that they can become part of their active vocabulary. The book is also designed for students working alone who want to revise and extent their vocabulary. But it can also be used as a part of a TOEFL preparation course in the classroom. It is also suitable for those who study English for academic purposes.
