## Preface

Nowadays people have more possibilities and are more willing to travel to foreign countries in order not only to have a holiday but also to receive new knowledge and enhance communicative skills. Learning English through new trends and traveling abroad makes you willing to learn the language, increase your confidence, and develop your ability to speak fluently.

This book is written for English learners and tourists whose first language is not English. It will teach you how to use English to carry on everyday activities while you are on holiday. It aims to be the leading source of information and gives you an insight into the country's culture and society. It allows you to explore your own knowledge and improve your ability to communicate. It gives you the symbolic nature of communication to a common challenge across.

This book is divided into FIVE parts. The contents page also acts as a summary of each chapter. I hope it can help you overcome your language barriers.

The especial thanks are offered to Mr. Moradi, the Publications Manager, and my adorable family who is a group of experience of love and support and is there for me during the ups and downs.

I would like to emphasize that this book is not devoid of flaws, so I highly appreciate if you send your comments on any aspects of it to the corresponding author: [hotelsandholidays.sharifi@gmail.com](mailto:hotelsandholidays.sharifi@gmail.com)
