

Environment Research Center Research Institute for Primordial Prevention of Non Communicable Disease Isfahan University of Medical Sciences

A Thesis Submitted for the Degree of PhD in Environmental Sciences

Association between Atheospheric Polycyclic Aromaic Hydrocarbons, Air Quality Index and Cardiometabolic Risk Factors in Children and Adolescents with Excess Weight

Supervisors:

Prof. Mohammad Mehdi Amin, Prof. Roya Kelishadi **Bv:**

Parinaz Poursafa

May 2017

پورصفا، پریناز، ۱۳۶۴ – Poursafa, Parinaz

عنوان و نام پدیدآور

Association between Atmospheric Polycyclic Aromatic Hydrocarbons, Air Quality Index and Cardiometabolic Risk Factors in Children and a Thesis Submitted for the Degree of Adolescents with Excess Weight / by Parinaz Poursafa; supervisors PhD in Environmental Sciences
. Mohammad Mehdi Amin , Roya Kelishadi.

اصفهان: انتشارات سمند، ۱۳۹۶ – ۲۰۱۸

Table of Contents:

| Chapter 1: Introduction. | 1 |
|--|-------|
| 1.1.Background | 3 |
| 1.1.1. Ambient Air Pollution as a Global Health Problem | 3 |
| 1.1.2. Common Air Pollutants | 3 |
| 1.1.3. Air Quality Index | 5 |
| 1.2. Study Importance | 6 |
| 1.3. Study Objectives | 7 |
| 1.3.1. Main Objective | 7 |
| 1.3.2. Specific Objectives | 7 |
| 1.3.3. Hypotheses | 8 |
| Chapter 2.: Literature Review | 8 |
| 2.1. The Role of Air Pollutants in the Origin of Chronic Diseases | 11 |
| 2.2. Susceptibility of the Pediatric Age Group to Air Pollutan. | 11 |
| 2.3. Toxic Effects of Exposure to PAHs | 13 |
| 2.4. Adverse Effects of PAHs on Hypertension | 14 |
| 2.5. Environmental Endocrine Disruptor Chemicals | 15 |
| 2.6. PAHs as an Endocrine Disruptor | 16 |
| 2.7. Association of PAH With Cardiometabol impairment Independent of Wo | eight |
| Status | 17 |
| Chapter 3: Methods and Materials | 17 |
| 3.1. Study Setting | 21 |
| 3.2. Data Collection for Air Pollutants | 21 |
| 3.3. Sample Collection, Preparation and Analysis for PAH | 23 |
| 3.4. Study Participants | 26 |
| 3.5. Study Design | 26 |
| 3.6. Data Collection, Physic, 1 E. amination and Sampling | 27 |
| 3.7. Laboratory Analyses | 28 |
| 3.7.1. Measurem to A PAH Urinary Metabolites | 28 |
| 3.7.2. GC! isu. m. itation | 28 |
| | |
| 3.7.3. B. c. ical Tests | 31 |
| 3.8. Defin. in of Cardiometabolic Risk Factors | 31 |
| 3.9. Statistical Analysis | 31 |
| 3.10. Systematic Review | 32 |
| 3.10.1. Selection Criteria and Quality Assessment of the Searched Articles | 32 |
| 3.10.2.Inclusion Criteria | 33 |
| 3.10.3. Exclusion Criteria | 33 |
| Chapter 4: Results | 31 |
| 4.1. Association of Atmospheric PAH Concentrations and their Urinary Metabolites | 37 |
| 4.2. Association of PAH Metabolites with Cardiometabolic Impairment in Children | and |
| Adolescents with or Without Obesity and those with or without Cardiometabolic I | Risk |
| Factors | 40 |
| 4.3. Association of Ambient PM25 and AQI with Cardiometabolic Risk Factors | 49 |
| 4.4. Systematic Review on the Association of PAH Exposure with CVDs and their I | Risk |
| Factors | 40 |

| Chapter 5: Discussion | 55 |
|--|----------|
| 5.1. Association of Ambient PM2.5-Bounded PAHs and their Urinary Metabolites | 57 |
| 5.2. Association of Pah Urinary Metabolites with Overweight and Cardiometa | bolic |
| Factors | 60 |
| 5.3. Association of PAH Ambient PM 2.5 and AQI with Cardiometabolic | Risk |
| Factors | 63 |
| 5.4. Systematic Review on the Relationship of PAH Exposure with Cardiometa | |
| Impairment | 65 |
| 5.5. Study Limitations and Strengths | 66 |
| 5.6. Conclusion | 67 |
| References | 69 |
| Appendixes | 85 |
