PREFACE

The present book, English Concepts for University Students, Has been compiled for those university students who try to improve their basic language knowledge to be used in their university studies throughout Iran. Usually these students have to improve their general English to follow their careers in their specialized university courses. They get prepared to use English text either as basic source of knowledge or secondary and complementary base. As far as this book has been intended to address all university students in all different majors, the attempt has been to include a wide range of different subjects to cover all different fields of interest. The texts chosen here are all simple and easy to understand for all different university students who may use it in their different educational fields of research.

In the compilation of this book it has been all attempted to take into consideration all different needs and interest of university students who have been with us for more than twenty years. Their needs and interest have been taken into consideration. It was all intended to match teaching English with the educational needs of the language learners who try to improve in order to get successful using up dated scientific English sources.

This course book contains 10 lessens each consisting of a list of new essential vocabulary items, followed by a reading comprehension passage, and then some basic grammatical points to be followed by some exercises. In each lesson some language learning strategy has been presented which will help learners in following their careers. The students will face with the second reading comprehension passage to be followed by some more related reading tasks in each unit.
