Geography of the European Mountains

مؤلف: Dr Hasanali Toranj

ناشر: انتشارات اساتید دانشگاه

ناشر همکار: انتشارات یاسر

سال چاپ و نوبت چاپ: اول زمستان ۳۹۸

تیراژ: ۱۰۰ جلد

قیمت: ۱۲۰۰۰۰۰۰ ریال

شابک: ۲-۲۳-۶۴۹۲-۶۲۲-۹۷۸

تلفن انتشارات: ۰۹۱۲۴۳۴۲۷۴۱ همراه ۰۲۱-۶۶۴۰۱۸۷۸-۶۶۴۰۵۰۷۳

Index	Page
Ural Mountains.....	1
Etymology.....	2
History.....	2
Wooded Ural Mountains.....	4
Geography and topography.....	4
Polar Ural.....	4
Nether-polar Ural.....	5
Northern Ural.....	5
Middle Ural.....	5
Southern Ural.....	5
The Ural Mountains.....	5
The West Siberian Plain.....	6
The Central Siberian Plateau.....	7
The mountains of the south and east.....	7
Drainage.....	8
Rivers.....	8
Lakes.....	9
10 Great Ancient Mysteries Of The Ural Mountains.....	12
1. Gigantic Ancient Stone Structures Hidden In The Ural Mountains.....	12
2. Arkaim: A Scientific Enigma And Anomalous Zone.....	12
3. Ancient Super Megaliths And Giant Walls In The Ural Mountains.....	13
4. Prehistoric Hi-Tech Nanospirals Barely Visible To The Naked Eye.....	14
5. 'Patomskiy Crater': 'Fire Eagle Nest': A Mysterious Anomalous Structure.....	14
6. Fossils Of 267-Million-Year-Old Crowned Crocodile Dinosaur.....	14
7. Striking Ancient "Stone Idols": The Forgotten Polovtsian Statues.....	15
8. The Mysterious Tunguska Explosion – Earthquake Is Much Older Than Previously Thought.....	16
9. Controversial 120 Million-Year-Old "Map Of The Creator".....	17
10. Perm Anomalous Zone: Unusual And Mysterious Phenomena In The M-Triangle.....	18
Geology.....	19
Rivers and lakes.....	22
Climate.....	22
Flora.....	24
Fauna.....	24
Polecat.....	25
Ecology.....	26
Cultural significance.....	26
Deep structure of the southern Ural mountains as derived from wide-angle seismic data.....	26
The E–W Main Line.....	28
P-wave sections.....	28
P-wave model.....	33
S-wave sections.....	35
S-wave model.....	38
The N–S Cross-Line.....	39
Discussion and Summary.....	39
Acknowledgements.....	41
Birding in European Russia: Ural mountains, Yekaterinburg and Orenburg region.....	41
Western Palearctic boundaries in Russia.....	42
Logistics.....	42
Yekaterinburg area.....	43
Rufous Turtle Dove.....	43
Oriental Cuckoo.....	44
Azure Tit.....	44

Variscan orogeny and structural inheritance.....	149
Permian–Triassic evolution	149
Jurassic–Early Cretaceous basin evolution	149
Early Alpine orogeny	150
Late Cretaceous–Paleogene basin system evolution	150
General subdivision	151
The Eastern Balkan thin-skinned part.....	152
The Western Balkan thick-skinned part.....	154
The Plakalnitsa fragment (western)	155
Subthrust tectonics	157
Foreland basins	157
Strike-slip component	160
CONCLUSIONS	161
GEODYNAMICS OF THE BALKAN PENINSULA AND BULGARIA	161
GEODYNAMIC INVESTIGATIONS OF THE BALKAN PENINSULA (BP)	161
General Information for the Global Geodynamics in the Context of the Balkan Peninsula	161
Geodynamic Investigations of Particular Balkan Countries <i>General</i>	164
Tectonic Setting.....	164
