As EMS students you will sometimes need English for different purposes: to cope with medical reading or journal articles related to emergency medicine; to communicate with other colleagues or with paramedical staff; to answer an incoming emergency call or for telephone exchanges; but you will specially be involved in situations in which your patient and his or her family, or even bystanders, do not speak Persian. In order to help them and to deal with these situations, you should develop your ability to communicate with them and improve your knowledge of technical English. It is important to learn some of the basic medical vocabulary and the common phrases to familiarize yourself with every emergency situation that you are likely to experience if you want to provide competent care despite the language difficulties you will find. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy are required.

Good clinical skills and competency are an essential part of their care to victims or injured people; but good communication skills also have a great effect in patients to develop health professionalism; and this is the goal of this book. This book has been written for EMS and Nurse students. We hope that this book will make your experience of Emergency Medicine, Critical Care and Medical language more enjoyable and provide you with a solid foundation in the safe management of patients in this setting, an essential component of any career choice in EMS.

Contents

Chapter1-----	1	Quiz of Lesson -----	29
Emergency Medical Care Systems and Public Health-----	1	Chapter6-----	31
The EMS System-----	2	Pharmacology and Medication Administration-----	31
The Health Care System-----	3	Administering Medications-----	32
Public Health-----	4	Routes of Administration-----	34
Quiz of Lesson -----	5	Essential Medication Information -----	36
Chapter2-----	6	Key Steps in Administering Medication --	37
Workforce Safety and Wellness of the E M T 6		Quiz of Lesson -----	37
Protecting Yourself from Disease -----	7	Chapter7-----	39
Infectious Diseases of Concern -----	8	Baseline Vital Signs, Monitoring Devices, and History Taking-----	39
Protecting Yourself from Injury-----	9	Vital Signs-----	40
Wellness Principles-----	9	1-Respiration-----	41
Quiz of Lesson -----	9	2- Pulse-----	42
Chapter3-----	11	3- Skin-----	44
Medical, Legal, and Ethical Issues-----	11	4- Pupils-----	45
Legal Duties -----	12	5-Blood pressure-----	46
E M T Code of Ethics -----	13	6-Pulse Oximeter-----	47
Issues of Patient Consent and Refusal----	13	Taking the History -----	48
Quiz of Lesson -----	16	Quiz of Lesson -----	48
Chapter4-----	18	Chapter8-----	50
Medical Terminology-----	18	Airway Management Artificial Ventilation, and Oxygenation-----	50
Medical language-----	19	Respiration -----	51
Anatomy of a Medical Term-----	19	Airway Assessment-----	54
Special Word Parts -----	20	Assessment of Breathing-----	59
Common Direction, Movement, and Position Terms-----	20	Techniques of Artificial Ventilation-----	61
Quiz of Lesson -----	23	Continuous Positive Airway Pressure (C P A P)-----	65
Chapter5-----	24	Oxygen Therapy-----	66
Functions of the patient care report -----	25	Oxygen Delivery Equipment-----	67
Collection of Data in PCR s-----	26	Quiz of Lesson -----	69
Alternative Documentation Methods-----	28	Chapter9-----	70

Respiratory Emergencies-----	70	Psychiatric Problems-----	110
Respiratory Distress-----	71	Techniques for Treating Psychiatric	
Pathophysiology of Conditions That Cause		Emergency Patients-----	112
Respiratory Distress-----	72	Dealing with Psychiatric Emergencies --	113
Quiz of Lesson-----	77	Quiz of Lesson-----	114
Chapter10-----	79	Chapter14-----	116
Cardiovascular Emergencies-----	79	Seizures and Syncope-----	116
The Heart-----	81	Seizures-----	117
The Process of Artery Occlusion		Emergency Care Protocol Seizures-----	119
(Atherosclerosis)-----	82	Syncope-----	120
Cardiac Compromise and Acute Coronary		Quiz of Lesson-----	121
Syndrome-----	82	Chapter15-----	122
Quiz of Lesson-----	87	Acute Diabetic Emergencies-----	122
Chapter11-----	89	Understanding Diabetes Mellitus-----	123
Shock and Resuscitation-----	89	Acute Diabetic Emergencies-----	125
Shock-----	90	Quiz of Lesson-----	127
Etiologies of Shock-----	91	Chapter16-----	129
Categories and Types of Shock-----	92	Anaphylactic Reactions-----	129
Resuscitation in Cardiac Arrest-----	96	Emergency Medical Care-----	131
The 2020 AHA Chain of Survival-----	97	Quiz of Lesson-----	132
Automated External Defibrillation and CPR		Chapter17-----	134
-----	97	Toxicologic Emergencies-----	134
Quiz of Lesson-----	100	Poisons and Poisoning-----	135
Chapter12-----	101	Specific Types of Poisoning-----	137
Altered Mental Status, Stroke, and Headache		Drug and Alcohol Emergencies-----	139
-----	101	Specific Substance Abuse Considerations	
Altered Mental Status-----	102	-----	140
Stroke-----	103	Quiz of Lesson-----	142
Headache-----	106	Chapter18-----	144
Quiz of Lesson-----	106	Abdominal, Hematologic, Genitourinary and	
Chapter13-----	108	Renal Emergencies-----	144
Psychiatric Emergencies-----	108	Acute Abdomen-----	145
Psychiatric Problems and Emergencies- 109		Organs of the Abdomen and Their	
Mental Status Exam-----	110	Functions-----	147

Abdominal Injuries -----	151	Head Trauma -----	186
General Emergency Medical Care —		Head Injury -----	187
Abdominal Trauma -----	151	Pathophysiology of Traumatic Brain Injury	
General Emergency Medical Care —		-----	188
Abdominal Evisceration -----	152	Quiz of Lesson -----	189
Hematologic Emergencies -----	152	Chapter23 -----	190
Genitourinary/Renal Emergencies -----	153	Eye, Face, and Neck Trauma -----	190
Dialysis -----	156	Specific Injuries to the Eye, Face, and Neck	
Quiz of Lesson -----	157	-----	192
Chapter19 -----	159	Injuries to the Face -----	194
Bleeding and Soft Tissue Trauma -----	159	Injuries to the Neck -----	195
External Bleeding -----	160	Quiz of Lesson -----	196
Internal Bleeding -----	163	Chapter24 -----	198
Factors That May Increase Bleeding ----	164	Spinal Injury and Spine -----	198
Hemorrhagic Shock -----	165	Complications of spine injury -----	202
Soft Tissue Trauma -----	165	Emergency Medical Care -----	202
Closed Soft Tissue Injury -----	165	Quiz of Lesson -----	204
Open Soft Tissue Injury -----	166	Chapter25 -----	205
Dressings and Bandages -----	169	Chest Trauma -----	205
Quiz of Lesson -----	170	Anatomy of the Chest -----	206
Chapter20 -----	172	General Categories of Chest Injuries ----	206
Burns -----	172	Emergency Medical Care — Chest Trauma	
Classification of Burns -----	173	Quiz of Lesson -----	211
Emergency Medical Care -----	174	Chapter26 -----	213
Quiz of Lesson -----	176	Multisystem Trauma -----	214
Chapter21 -----	178	Trauma in Pregnant Patients -----	214
Musculoskeletal Trauma -----	178	Trauma in Pediatric Patients -----	215
Injuries to Bones and Joints -----	180	Trauma in Geriatric Patients -----	216
Types of Fractures -----	182	Trauma in Cognitively Impaired Patients	
Basics of Splinting -----	183	-----	216
Non traumatic Fractures -----	183	Quiz of Lesson -----	217
Quiz of Lesson -----	184	Index -----	219
Chapter22 -----	186	References -----	220

ACKNOWLEDGEMENTS

I would like to thank all the people who have helped me write and design this work

I would like to say a huge thank you to all of the contributory authors for their valuable time and expertise in writing their chapters.
