To the Instructor

New Horizon in English Reading Comprehension & Vocabulary Development is a reading and vocabulary skills text designed for students of English as a second or foreign language as well as those who are interested in IELTS, TOEFL, MCHE, TOLIMO, etc. The users are supposed to have a basic vocabulary of about 2,000 words. This text teaches about 500 more words. Building on the strength of the other books in English reading comprehension and vocabulary development, *New Horizon* balances engaging readings with systematic recycling of reading, vocabulary, and grammar skills.

Organization of *New Horizon*

New Horizon is organized into 11 units. Each unit contains different sections packed with exercises and activities.

- **"Before You Read" Questions.** These pre-reading questions provide a motivation for reading the text.
- **"Words Definitions".** This section gives some definitions (synonyms) for the unknown vocabularies in the reading comprehension text.
- **"Comprehension".** First is a set of true/false or multiple choice questions. Then come comprehension questions. Which include inference and discussion questions. The comprehension questions may also be given as multiple choice items.
- **"Vocabulary".** These exercises give practice with new words in a different context but with the same meaning.
- **"Grammar Review".** A selection of grammar exercises aims to reinforce necessary structural points.
- **"Vocabulary Expansion".** Through collocation and word form activities, each lesson encourages the users to expand on the vocabulary they have learned.
- **"Writing".** Based on the new vocabularies, some lessons close with a writing exercise.
