PREFACE

Spotlight on English is designed for learners who want to strengthen their reading skills for academic, personal, or career purposes. We have tried to select the reading with great care so that we would have to make as few changes as possible from the original texts. We have chosen texts with simple structures and vocabulary in the earlier readings. The readings are arranged in order of difficulty level, and the structures deliberately built upon vocabulary and structured introduced in each unit. We have also provided margin glosses to help the reader out.

What makes the present book different from the available ones, is the added focus on pronunciation. There is an audio CD included which a native speaker reads aloud all the texts.
